

School Improvement and Development Plan 2022-23

Outlined below are our priorities for the entire school community as we strive towards excellence:

1. **SEND (In-school Provisions)** – although Ofsted have quite rightly identified SEND as a strength of the school, we have an unprecedented number of pupils with complex SEND needs being admitted. We need to build capacity in physical and human resources to meet the needs of these pupils and ensure the quality of education secures good outcomes for them.
2. **Assessment for Learning** – we reviewed our assessment and feedback approach but this needs further refining; also included within this priority will be provision for pupils within the lowest 20% group.
3. **Spoken Language and Oracy** – ensuring our pupils develop confidence in spoken language and can articulate opinions, ideas and feelings well is a priority across the school.
4. **Behaviour and Relational Approach Policy** – Feedback from staff during our recent Ofsted inspection indicated that they felt this approach needs further developing, we will map out a clear progression of leadership qualities to recognise integrity and positive attitudes and achievements. Our Rights Respecting values and character development strands will be integrated throughout.
5. **Curriculum – Subject Knowledge Retention** – an Ofsted identified area for improvement to further embed our strategies.

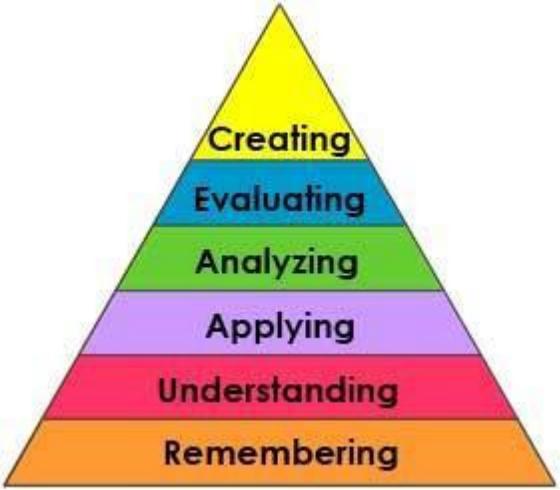

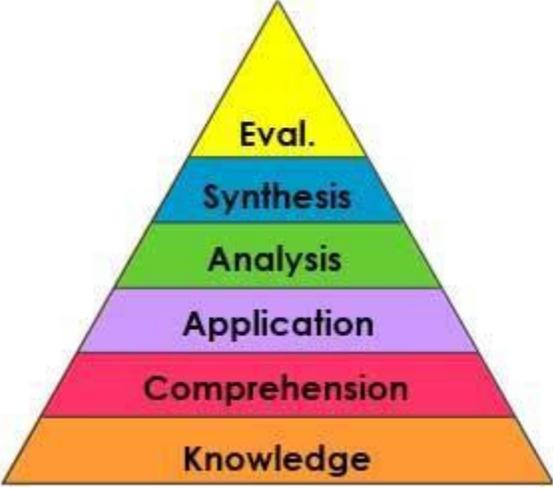

GASCOIGNE PRIMARY SCHOOL PRIORITIES 2022-23

GASCOIGNE PRIMARY SCHOOL PRIORITIES

Which methods underpin our learning community at Gascoigne Primary

Following the introduction of the New National Curriculum, year group expectations have changed considerably for all primary school aged children. It would be fair to say that the “bar” has been raised and learning expectations for English and Maths, in particular, are greater. We, at Gascoigne Primary, are taking Bloom’s Taxonomy principles in helping our young learners to embrace these varied skills and being able to apply them in a range of contexts in order to prepare all children for jobs that don’t exist yet.... Using technologies that haven’t been invented... in order to solve problems we don’t even know are problems yet!

 <p>New Version</p> <p>The pyramid is divided into six horizontal layers, from top to bottom: yellow (Creating), blue (Evaluating), green (Analyzing), purple (Applying), pink (Understanding), and orange (Remembering).</p>	<p>In 1956, Benjamin Bloom headed a group of educational psychologists who developed a classification of levels of intellectual behaviour important in learning. During the 1990s, a new group of cognitive psychologists, led by Lorin Anderson (a former student of Bloom), updated the taxonomy to reflect relevance to 21st century work. The two graphics show the revised and original Taxonomy.</p> <p>Note the change from nouns to verbs associated with each level.</p> <p><i>Note that the top two levels are essentially exchanged from the traditional to the new version.</i></p>	 <p>Old Version</p> <p>The pyramid is divided into six horizontal layers, from top to bottom: yellow (Eval.), blue (Synthesis), green (Analysis), purple (Application), pink (Comprehension), and orange (Knowledge).</p>
<p>Remembering: can the children recall or remember the information?</p>	<p>define, duplicate, list, memorise, recall, repeat, reproduce state</p>	
<p>Understanding: can the child explain ideas or concepts?</p>	<p>classify, describe, discuss, explain, identify, locate, recognise, report, select, translate, paraphrase</p>	
<p>Applying: can the child use the information in a new way?</p>	<p>choose, demonstrate, dramatize, employ, illustrate, interpret, operate, schedule, sketch, solve, use, write.</p>	
<p>Analysing: can the child distinguish between the different parts?</p>	<p>appraise, compare, contrast, criticise, differentiate, discriminate, distinguish, examine, experiment, question, test.</p>	
<p>Evaluating: can the child justify a stand or decision?</p>	<p>appraise, argue, defend, judge, select, support, value, evaluate</p>	
<p>Creating: can the child create new product or point of view?</p>	<p>assemble, construct, create, design, develop, formulate, write.</p>
