

Name: _____

Represent addition and subtraction facts within 10

Task A: Represent addition facts to 10

Play your own version of Alex and Izzy's dice game.

Roll two dice and find the sum of the two numbers shown. You can use a number frame to help you.

If you roll two 6s or a 5 and 6, roll again.

We will be exploring these again in the future.

Write an equation to represent what you have thrown.

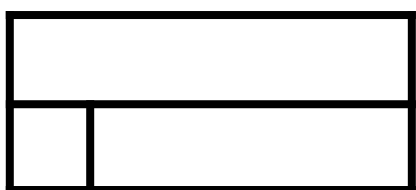

Task B: Represent subtraction facts to 10

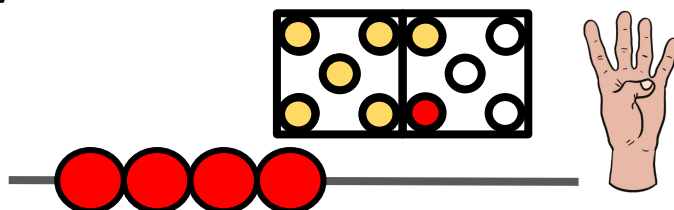

Play your own version of Alex and Izzy's digit card game.

Turn over two cards and subtract the smaller amount from the larger amount to find the difference.

Write an equation to represent what you have done.

Represent the equation and think about which strategy will help you to solve it.

Remember, you may also be able to use addition facts to help solve subtraction facts.
